

Emuge Franken UK, Innovative Cutting Tool Manufacture Partner with NCG CAM Software

About the Company

EMUGE FRANKEN with more than 90 years of experience.

Ever since its foundation, Franken has been developing and manufacturing milling tools. As a result the company today offers a very wide range of solid carbide and HSS end mills as well as milling tools with inserts.

Our products include end mills, slot drills, die- sinking end mills, shell end mills, gear cutters, and even the most sophisticated special profile milling cutters. With this large variety of tool types and cutting materials, consistently high standards and uncompromising precision, our product range of milling cutters meets even the highest quality requirements.

Benefits of Partnering with NCG CAM

- ✓ Partnering with **NCG CAM** software gives added value to customers as can also advise on CAM software.
- ✓ The software is written for high speed machines, so reduces cutter wear too, saving customers money.
- ✓ Ease of use makes the training of users very easy.
- ✓ Partnering with **NCG CAM** software opens the door to additional sales leads to **EMUGE FRANKEN UK Ltd.**

“Emuge Franken UK partnership with NCG CAM software means we can offer our customers a more efficient milling solution. This in turn will help our customers to manufacture competitive products in shorter lead times and help them to become more profitable by applying the latest Franken cutting technology and NCG CAM strategies.”
